

English Language Camps

All-inclusive summer camps combining English learning in and out of the classroom with our range of exciting activities

Groups & Individuals

Our Philosophy

At NSX Xplore we have woven our five core values into our philosophy, meaning that all our students, no matter the programme they opt for, will be part of the same experience.

1 Social interaction
A student's time at NSX Xplore will be full of social opportunities and the chance to meet others from around the world. We actively encourage friendships through our huge range of team building and interactive activities. Our EFL classes also support this value as we put the emphasis on communicative learning and student-to-student interaction.

2 Leadership and Communication
We develop from within. We look at our staff as individuals and we support them by providing any training we can. We have the same ethos for our provision for students who have come to learn English. We don't teach groups; we teach individuals, together. Every student is tested to discover his or her level and joins a class accordingly. We ensure that students feel supported through their time with us and we give them the opportunities to grow into leaders themselves.

3 Language Development
Our language provision is designed with young learners in mind. We have our own syllabus in place for our teachers to work from, and while they will bring their own personal touch to their lessons, every student across all the centres will have the same level of teaching. We aim to support, encourage, inspire and create a stimulating environment for language learners, all of which underpins our core value of language development.

4 Local Integration
At every opportunity, we ensure that our students are involved in their local surroundings. We ensure that excursion days are interesting and are relevant to our learners and we promote this by providing pre-excursion information, in English of course! There is also the possibility for some students to integrate with local students on and off campus.

5 Cultural Immersion
Whilst key learning happens in the classroom, we also utilise our cultural outings to ensure our students get as much exposure to English as possible. Trips and excursions, along with activities and friendships are the lasting memories of a trip with NSX Xplore. However, we strive for the lasting effect of a student's time with us to be language development.

These five core values ensure that students feel supported, enriched and empowered throughout their time with NSX Xplore.

English Summer Camps

Our integrated summer camps are designed for students between the ages 8 to 17 to naturally improve their English language proficiency in an engaging and rewarding environment, taking part in a diverse programme of adventure activities and cultural excursions with the option to include EFL lessons to support language development.

Experience English

Whilst at camp, all our students are integrated with a mix of nationalities and native English-speaking leaders through a blended programme of adventure activity sessions, structured EFL lessons and cultural excursions designed to enhance your students' experience.

In the Classroom

Our EFL courses are accredited by Really English. EFL lessons are optional for students, but give a fantastic framework for students to develop their English language skills and can provide a qualification by sitting a suitable examination.

Activities & Specialist Camps

All our camps offer a variety of adventure activities such as: quad biking, climbing, archery, air rifles, bushcraft and watersports as standard. We also offer a range of specialist camps combining a focused subject with either EFL lessons or activities.

Health & Safety

All of our H&S standards comply with UK government guidelines and all centres and activities have fully comprehensive risk assessments.

Coronavirus (COVID-19)

We are pleased to advise that our centres are operating under COVID-secure guidelines and all appropriate measures will be in place. We hold the Visit England's 'We're Good to Go' industry standard.

Centre	Age	Price	Start date
Pangbourne College – Reading	10 – 15	£1995	8th July 2023
St Joseph's College – Ipswich	12 – 17	£1995	8th July 2023
Worksop College – Worksop	10 – 15	£1995	8th July 2023
Woodbridge School – Woodbridge	8 – 13	£1995	8th July 2023

English Summer Camps

Sample Programme

This is a sample programme for our standard 14-night summer camp programme.

	Morning	Afternoon	Evening
Sat		Arrival and Orientation	
Sun	English Placement Test	Activity sessions / Specialist Camp	
Mon	EFL Lessons	Activity sessions / Specialist Camp	
Tue	EFL Lessons	Activity sessions / Specialist Camp	
Wed	Full Day Excursion		
Thu	EFL Lessons	Activity sessions / Specialist Camp	Evening Activities For example: talent show, disco, movie night, sports tournament, casino night and campfire
Fri	EFL Lessons	Activity sessions / Specialist Camp	
Sat	Full Day Excursion		
Sun	Activity sessions / Specialist Camp	EFL Lessons	
Mon	Activity sessions / Specialist Camp	EFL Lessons	
Tue	Activity sessions / Specialist Camp	EFL Lessons	
Wed	Full Day Excursion		
Thu	Activity sessions / Specialist Camp	EFL Lessons	
Fri	Activity sessions / Specialist Camp	EFL Lessons	
Sat	Departure		

EFL lessons replaced by activity sessions if choosing our Language Activity Camp (No EFL) package

Programme includes:

- Airport transfers from/to London Heathrow when students arrive/depart at specified times
- 14 nights accommodation
- Full board (special diets can be catered for on request)
- Saturday or Sunday arrivals / departures for groups
- Multi-activity sessions
- Excursions (include transfers, lunch and entrance fees)
- 24-hour care and supervision
- English language lessons
- Experienced teaching staff (incl. CELTA / TEFL certified teachers)
- Course materials
- Progress report
- Online course
- Travel insurance referral upon booking confirmation

Football and English Camp in partnership with Ipswich Town Football Club

Football
£450 and offered
for the first 4
weeks in July at St
Joseph's College

Our Football camp is perfect for students who want to improve their football skills whilst developing their English alongside other students with a shared passion for the beautiful game. This camp is best suited to those with prior football experience.

ITFC (Ipswich Town Football Club) football coaches are licensed and qualified for junior football training and the sessions are designed to develop players based on their age and ability.

This 2-week camp will consist of 1-2 football training sessions per day (except excursion days) delivered in English. Students can then choose to support their English learning through structured EFL lessons or multiactivity sessions.

Course Includes

Training sessions can take place on both indoor and outdoor pitches where coaches take time to improve technical ability, enhance individual skills and practice team building as well. Our aim throughout the course is that everyone is supported according to his or her individual criteria and abilities.

Highlights

A special highlight of this course is that players will go on a stadium tour during one of their excursions. All players will get to visit a Premier League stadium during their London excursion. Students will also be awarded with a certificate at the end of the 2-weeks.

The course will also include the chance to play against a local team in a friendly match, where students can test their new skills and experience playing against international players.

Equipment Required

Players will need to bring enough football training clothing with them to wear throughout the camp, including trainers for indoor training and synthetic pitches and football boots for grass pitches. Shin pads are required for matches.

Intensive English Course

The Intensive English Camp is an ESL camp with a concentrated and comprehensive approach to the teaching of English. This camp offers students 18 hours of English teaching every week in small groups of a maximum of 3 students. The student lets us know in advance of travelling to the UK which topics they would like to focus on and our experienced teachers create bespoke lesson plans to suit each student's particular requests. This camp is particularly suitable for students revising for a specific exam as our teachers can tailor the lessons to suit the demands of their exam board.

Advantages of small group teaching include:

Flexibility

Teachers can easily adapt classes by allocating more or less time to topics to meet the needs of the individual students. Due to the small class sizes, the teacher becomes more familiar with the students and can tailor their lessons to suit the individual student's method of learning.

Inspiring confidence

Many children are too shy to participate in large class discussions as they do not have enough self-belief in their ability to speak in the target language in front of such a large group. The small group teaching creates a more informal atmosphere in which students feel more comfortable and are encouraged to communicate in English.

Intensive English
£375 and offered for
the first 4 weeks in
July at Pangbourne
College

Better feedback

In a small group, feedback can move beyond marked work and an A* – F grade. Due to the relaxed, informal environment, students receive more instant oral feedback in class which leads to more overall feedback per student in comparison to the larger classes. In general, small group teaching allows more direct communication between the teacher and student.

Building team working skills

Due to its nature, small group teaching encourages teamwork skills as students are often given small problems or tasks to complete together as a group of 3. In this way, the small group teaching supports both academic and social development.

This course is perfect for students who would like to have a heightened focus on their language acquisition during their trip to the UK. It provides them with a challenging and yet supportive environment to focus on learning English whilst giving them the opportunity to participate in fun activities and go on excursions.

Rugby and English camp offered by PSA Academies

Rugby
£365 and offered
for the first 4 weeks
in July at St Joseph's
College

In partnership with PSA Academies, we're delighted to announce our exciting high-performance Rugby Immersion Programmes for 12-17yrs old players, boys and girls. The programme is designed to maximise the players time developing their rugby while studying English.

This 2-week rugby camp consists of 30 hours of training sessions delivered in English supported by 30 hours of English language lessons and two cultural excursions. The sessions will be broken up focusing on different areas of athletic development, training and assessment such as game management and core skills.

Delivering the course will be elite-level coaches from PSA Academies who have a wealth of experience from all areas of the game both domestically and internationally.

Course Includes.

- Rugby Programme Features
- Core Rugby Skills Development (Catch Pass, Tackle, Breakdown & Ruck)
- Player Development Testing Videos & Reports
- Speed, Agility, Quickness Training (SAQ)

- Strength & Conditioning (S&C) Technical Analysis
- Sports Science Content & Learning (Nutrition, Mental Wellness).
- Physical Development & Injury Management/Concussion Awareness)

Our aim is for players to have a better understanding of the game and learning of what it takes to be a rugby player on and off the field.

Equipment Required

Players will need to bring sports kit with them, including football boots, gym trainers and a gumshield

Horse Riding and English Camp in association with Poplar Park Equestrian

Horse Riding
£450 and offered
at Woodbridge for
all 6 weeks

Highlights

At the end of the two weeks riders will be awarded certificates and rosettes for their achievements.

Horse Riding is both a sport and a pastime enjoyed worldwide – our course focuses on the sporting elements of show jumping and dressage as well as covering the basics of grooming and stable management.

Our Horse Riding Camp is perfect for students who have a love of horses and would like to improve their stable management and riding ability alongside developing their English language skills with other keen riders.

This 2-week course is suitable for both beginner and more advanced riders, however we would recommend students to have some experience of being around horses.

When our Horse Riding students are not at the stables, they will be on-campus taking part in either fun and interactive EFL lessons, or a programme of adventure activities in addition to enjoying excursions to local towns, cities or attractions.

Course Includes

This 2-week long course includes 15 hours at the stables; there will be 5 sessions over 2 weeks in either the morning or afternoon (Wednesdays will be reserved for an excursion). The students will have half a session of riding and half a session of stable management.

Our riding instructors are Pony Club qualified and will begin by assessing all students, including basic riding positions in walk, trot and canter.

During the course, students will also learn stable management and how to safely handle the horse, including securely tying up, leading, grooming, tacking up and feeding.

At the end of the 2-weeks, our riders will have the opportunity to show off new skills with a 'Dressage and Show Jumping competition' where rosettes will be awarded. Students should have a much better understanding of equestrian care and stable management and will have improved their riding ability.

Equipment Required

Students should not bring riding helmets, all helmets and equipment will be provided due to British standards. Riders are welcome to bring their own specific riding clothing such as jodhpurs and boots.

F1 Summer Camp in schools

Exclusive summer camp provider for the F1 in Schools Global STEM Challenge

F1 Global
STEM Challenge
£750 and offered at
St Joseph's College
for all 6 weeks

The aim of this 2-week STEM challenge is to design, analyse, make, test, modify and then race a model F1 car.

Seems straightforward? This course is so much more, in addition to applying science, students will also need to apply real life skills such as project management, teamwork skills, following instructions, speaking and listening skills in English as well as recognising their own and others personal strengths.

Each course will cater for a maximum of 18 participants, allowing for 3 teams of 6 students. Each team will consist of a Team Project Manager, Manufacturing Engineer, Design Engineer, Graphic Designer and Resource Manager.

Highlights

Not interested in Motor Racing or STEM? This camp is still for you! It offers a fantastic opportunity for young adults to explore lots of valuable real-life transferrable skills in a fun, interactive summer camp environment.

Course Includes

The camp will be delivered in 3-hour sessions on 8 mornings or afternoons over the 2-weeks, totalling 24 hours for the course.

During the sessions, the following topics will be covered:

- Research, design and make a model Formula 1 car
- Analysis of what will impact the car's performance, such as air resistance, gravity and air pressure
- How to develop ideas through sketching, including:
 - Design features that will help the car go faster
 - Identifying causes that would slow the car
 - Styling the car
 - Testing the car's performance and aerodynamic performance

Equipment Required

No equipment needed, this course is fully resourced.

An overview of our Language Provision

All our NSX Xplore teachers are trained in our methods, our philosophy and our ethos. We are absolutely dedicated to having the very best language provision for your students so that not only do they have an outstanding programme with us, but they go home having improved leaps and bounds in their English.

Our Director of Studies is Diploma qualified and has formulated this programme to exactly fit the needs of students attending our short-term language courses.

During your students' time with us, they will study English through many topics and subjects. While we are aware of the importance of grammar and function of the language, we are basing our syllabus on communicative and interactive lessons for the students. They will be able to exercise their English in debates, through role play and using their imagination.

Our syllabus is based on the Common European Framework Reference (CEFR) and we work at those levels in the classroom. In this way we can ensure that each student can understand the tasks and contexts, but by the same token be stretched. Each of our teachers is trained on the CEFR, ensuring that all of the students are constantly monitored and can be rearranged in level or class, if that should be deemed necessary.

We have gone to great lengths to ensure that all of our teachers have the same NSX Xplore training, as well as their own TEFL qualification. We have the same excellent standard of language provision across all of our centres at all times across the year, which is fundamental to our

programmes so we can therefore guarantee you, as an agent, that no matter which centre or time of year you choose, you can be assured of the high language standards.

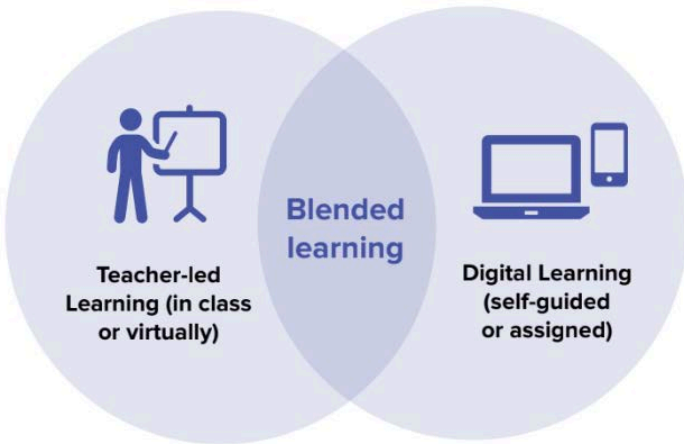

Our Approach

Our method is one of natural acquisition. We are sure to support even the shyest of students, to ease them into a natural and normal way of communicating in English. Relying on the authenticity of the tasks and language we present, we support and encourage our young learners to start being comfortable with taking linguistic risks, taking strides forward and using the language with comfort. Natural acquisition allows students to leave the course with a firm grasp on the language, through repetition.

We strive to give students the tools to achieve more. Whether that be in the activities or the English classroom, we ensure we equip them for success. Each of our teachers has received our own in-house training, supported by an Academic Manager and a Director of Studies.

Blended Learning

In today's world students and teachers need a flexible and effective way to learn English that utilises all the benefits of technology, and maximizes progress. Our core value is to make sure students study the right thing, more often, with better results - by providing world-class materials and a solid, easy-to-use framework for blended and flipped learning approaches.

Why use a blended approach?

A blended approach to English language learning is a method of delivery that combines live, teacher-led lessons (either in a conventional or in a virtual classroom) with digital learning.

A blended approach offers:

Efficiency – Students can improve their receptive skills, build their vocabulary and practice grammar outside of class. This allows teachers to focus more time on productive skills during class.

Accelerated learning – Preparation and practice in the digital space gives students the opportunity to focus on their weak points either before or after their live, teacher-led lesson – this in turn can help close gaps in mixed ability classes.

Personalization – Teachers can see how students are progressing with their digital learning, bring in supplemental activities, and spend more class time giving personal support.

Traditional classroom model

In Class

Teachers teach lessons in class using Reallyenglish blended lessons or 3rd party materials.

Students listen and take notes.

At Home

Students go home and complete assigned homework/practice on the Reallyenglish platform.

Flipped classroom model

In Class

Class time is used for discussion and speaking practice with teachers and peers.

Teachers guide and support student as needed.

Blended Learning

How we support blended learning

Reallyenglish provides ready-made material to form the backbone of a high quality blended learning English program. We have thousands of hours of content for students to access that will fit a variety of teaching aims and learning environments. Our focus with digital is to make sure students can access it anytime, anywhere for seamless study.

Our ready-made blended lessons provide:

- A logical flow and link to materials that are completed in self-study mode, and at the student's own pace.
- Lesson structures that are pedagogically sound providing presentation, practice and production activities, and plenty of opportunity to interact.
- An alternative to a traditional coursebook, and a substantial saving on resources.
- Teacher support with clear lesson aims and how-to notes that will help save on preparation time.

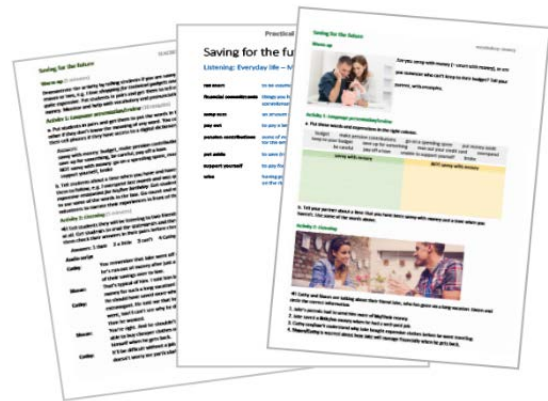

What's available

Blended lessons are available for:

Practical English Starter, Practical English 7, Business Speaking and IELTS Speaking.

The lessons are designed to cover a 50-60 minute class period, and the content is clearly linked to its digital counterpart lesson, but with a specific focus on output and speaking skills.

We can deliver these to you as stand-alone PDFs or Word documents, with audio files where applicable. Our **Practical English** courses are also supported with lessons in PPT format with embedded audio for front-of-class use, or delivery in a virtual classroom.

Course	Level	# of digital lessons	# of blended lessons	Components
Practical English Starter	A1	56	48	Student Lesson, Teacher's Notes, Key Language Summary, Audio Files PPT/embedded audio, Offline (Print) Placement and Progress Tests
Practical English 7	A2 - C1	350	192 (48 at each level)	Student Lesson, Teacher's Notes, Key Language Summary, Audio Files PPT/ embedded audio, Offline (Print) Placement and Progress Tests
Business Speaking	B1 - B2	60	30	Student Lesson, Teacher's Notes, Key Language Summary, Audio Files PPT/ embedded audio
IELTS Speaking	A2 - B2	15	15	Teacher's Notes with tasks and activities
